

Summer Experience

What Former Summer Associates Say

"I have worked in office environments before, but I have never experienced the camaraderie and support that I experienced at Chapman. Everything from events to brief conversations with colleagues has shown me that Chapman has created a work environment unlike any other."

"I was concerned that because I did not have a finance background I would fall behind or become disinterested in the subject matter. What happened this summer was quite the opposite! I have thoroughly enjoyed the projects I worked on, and I found myself wanting to keep learning so I can start to build the foundation for becoming a valuable asset to the firm."

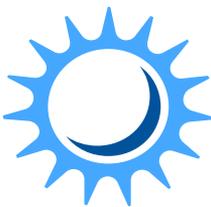

"I think Chapman is ahead of the curve in terms of adapting to the evolving legal market and is very well-managed."

Mentoring and Training

- Feedback on every project
- Two formal review sessions
- Ongoing informal guidance
- Career/practice advice
- Business communication advice
- Legal writing training
- Negotiation skills training
- Legal technology platform training

Examples of Past Summer Events
