

Motor Vehicle Loans, Leases, and Floorplan Receivables

Chapman and Cutler attorneys serve as counsel to issuers, underwriters, credit enhancers, and investors (including commercial paper conduits) in numerous auto loan and lease, truck loan and lease, and recreational vehicle loan receivable transactions, as well as dealer floorplan transactions. We regularly assist clients in establishing structured warehousing facilities collateralized by auto loans and leases and dealer floorplan receivables, as well as other types of motor vehicle assets. Our auto securitization experience includes title loan and auto insurance premium securitizations.
