

Transportation Assets

Chapman and Cutler is one of the leading law firms in the transportation financing sector. Chapman attorneys have extensive experience in structuring aviation, infrastructure, maritime, and rail financings, including through secured financings, warehouse financing facilities, and lease portfolio securitizations. We regularly represent arrangers, lead lenders, administrative agents, and institutional investors in the financing of transportation assets around the world. Our lawyers are also highly knowledgeable about the permitting, registering, environmental, and other unique issues that arise in financing this asset class.
