

Asset-Backed Securities

At Chapman and Cutler, our asset-backed securities (ABS) experience covers an array of financial assets, including credit card receivables, motor vehicle loans, leases and floorplan receivables, consumer loans, equipment loans and leases, student loans, trade receivables, manufactured housing loans, mortgage loans, aircraft secured notes, commercial loans, timeshare loans, transportation assets (including shipping containers, railroad rolling stock, and aircraft engines), and others.

Our ABS clients include issuers, underwriters, originators, sponsors, managers, trustees, servicers, and investors in transactions ranging from publicly offered and privately placed securities to commercial paper conduit-funded and bank-funded warehouse transactions. We also frequently represent clients in acquisitions, joint ventures, and other principal finance transactions involving transfers of financial assets that may also include a related securitization or other asset-based financing transaction.
