

Professional Staff

Find a career with purpose at Chapman.

Chapman's professional staff are the backbone of the firm, providing essential services in support of our attorneys, clients, and business operations. Every member of Chapman is a crucial part of the team, and their work matters.

Our culture combines individual purpose with collaboration and the pursuit of new ideas and provides a platform for growth and development. Chapman's training and professional development programs are designed to provide learning experiences that foster skill development and advancement, encourage the adoption of new tools and technologies, and support well-being. New employees joining the firm are immersed in an orientation program that not only covers the skills needed for their particular job descriptions, but also trains on our Mac computer system and firmwide collaboration tools.

Chapman offers a dynamic, supportive environment in which to engage in interesting and rewarding work. We offer competitive compensation and generous benefits; support full-time, flex-time, and alternative work policies; offer extended parental leave; and provide access to backup child and elder care.

Please review our open Support Staff positions. Please check back periodically if no openings are posted at this time.

Workplace 2022

We believe that law firms can play a crucial role in advancing environmental sustainability by making environmentally responsible choices. Chapman's Chicago office moved into a new building designed to achieve WELL Building Platinum and LEED Gold standards. See the building specs and progress.
