Skin-in-the-Game: Perspectives on Re-Proposed Risk Retention Rule (New York)

Event

CHAPMAN CLE EVENT

September 25, 2013

New York, New York

Chapman presented a regulatory update regarding key aspects of the Joint Regulators' Re-Proposed Risk Retention Rule. The program included two one-hour sessions. The first hour was a risk retention "primer" - providing an overview of the re-proposed rule. The second hour was a panel discussion and analysis of "game changers" - elements of the re-proposed rule that would have the greatest impact on the structured finance market. The update was also presented in Charlotte, North Carolina the following day.
