Hydroponic Farm Financing

BOND COUNSEL ON C-PACE FINANCING OF A HYDROPONIC VERTICAL FARM FACILITY.

Chapman served as bond counsel on a commercial PACE (C-PACE) transaction to partially finance the conversion of a 135,000 square-foot vacant retail facility in a south suburb of Chicago into an indoor hydroponic vertical farm producing sustainable leafy greens for the local community, grocers, and restaurants. Once completed, the project will be among the nation's largest indoor vertical farms.
