Chapman Adds Voice to Growing Call for Change

News
July 2021

Chapman proudly reaffirms our commitment to advancing diversity in the legal profession and supporting of our Attorneys with Disabilities Business Resource Group, by adding our voice to the American Bar Association's (ABA) initiative – Pledge for Change: Disability in the Legal Profession. The pledge underscores our belief that the legal profession must be open and accessible to all, and calls us to action to enhance opportunities for recruitment, mentorship, retention, and advancement of people with disabilities. We are being recognized for our action: Chapman was named “Corporate Partner of the Year” in 2021 for our work with the Center for Disability & Elder Law (CDEL), where we developed an app that streamlines the document preparation process, making it easier for CDEL to serve more clients.
